

 <p>Seasonal Change? Changes in weather often result in increased usage for heating and cooling systems</p>	 <p>Have you recently moved? You may not be aware that apartments can have higher consumption than houses</p>						
<p>New electrical appliances? New appliances or heating and cooling systems could be using more energy than you realise</p> 	<p>Household changes? Having visitors, a baby or changes with the number of housemates can impact on daily energy usage</p> 						
 <p>Electrical appliance maintenance? Ensure appliances are working efficiently and regularly maintained to avoid using more energy than necessary</p>	 <p>Home changes? Renovations within the home can increase your usage even after finalising them</p>						
<p>Estimated read? If ERC are unable to access your meter, or a technical error occurs, an estimated reading may be required for your account</p> 	<p>Has your meter been changed? If your meter has recently been replaced, you may notice increases when billing resumes according to your accurate consumption</p> 						
 <p>Check your meter read All ERC customers have the right to view their own meter and compare their read to the one shown on your invoice – please note you may need to request access to your meter from your On Site Manager</p>	 <table border="1" data-bbox="810 1279 1034 1406"> <tr> <td>Days</td> <td>Days</td> </tr> <tr> <td>28</td> <td>33</td> </tr> <tr> <td>28</td> <td>33</td> </tr> </table> <p>Has the billing period changed? Accurately compare invoices with your average daily usage in kWh rather than the dollar amount</p>	Days	Days	28	33	28	33
